

APUSH

Columbian Exchange Graphic Organizer

Instructions

1. On the map itself, identify at least one significant pre-Columbian culture in each of the following regions and label it on the map:

Southwest

Mississippi River Valley

Southeast

Great Lakes

Northeast

2. For each culture you chose, create a small textbox with a list of key features of that culture. (Put these boxes around the edges of the map.)

3. Using different colored pencils, shade in the areas settled by the Spanish, French, Dutch, and English.

4. Then, in the boxes to the right of the map, list things that were sent each direction as a part of the Columbian Exchange.
